

07/11/2020

In order to best protect all students, leadership team members, and all third parties affiliated for both the institution and the students,

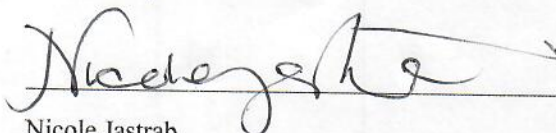

The International Barber College made it a mandatory requirement for all students and leadership team members to complete and submit a COVID-19 appointment scheduled, appointment completed, and COVID-19 test results prior to today's date.

In addition to the above requirements, due to the testing facilities being backed up and missing test results from the students and leadership team members, we feel it is in everybody's best interest for the institution and the students to complete distance education from 07/13/2020 -- 07/27/2020 with all parties expected and required to submit the documentation mentioned prior to 07/27/2020.

All students have been provided the announcement in writing on the Google Class Stream, e-mails, and texts. Furthermore, all students have been given the option to go on a LOA (Leave of Absence) and requested to provide the LOA request in writing if necessary.
